FORTIS INC. ACQUIRES ADDITIONAL SHARES OF CARIBBEAN UTILITIES

Fortis Inc. ("Fortis") (TSX:FTS) announced today that it has acquired, through its wholly owned subsidiary Fortis Energy (Bermuda) Ltd. ("FEBL"), an aggregate of 2,156,148 Class A Ordinary Shares (the "CUC Shares") of Caribbean Utilities Company, Ltd. ("CUC") (TSX:CUP.U) at a price of US$11.09 per share. The 2,156,148 CUC Shares purchased by Fortis were purchased in two related transactions. 1,356,551 CUC Shares were acquired pursuant to FEBL's proportionate right to subscribe for CUC Shares under the rights offering by CUC which expired on August 15, 2008 (the "Rights Offering"). The remaining 799,597 CUC Shares were acquired pursuant to the standby purchase commitment of FEBL made in connection with the Rights Offering.

As a result of these acquisitions of CUC Shares under the Rights Offering, Fortis now indirectly owns 15,721,659 CUC Shares, increasing its ownership position from approximately 54% to approximately 56% of the outstanding CUC Shares.

The purpose of the acquisition of the CUC Shares by Fortis under the Rights Offering was to assist CUC with raising the capital required to fund and grow its operations. Fortis will review its holdings in CUC Shares from time to time and may acquire additional securities or dispose of securities of CUC, in either case, in the open market, by private agreement or otherwise, depending on numerous factors, including without limitation, the availability of securities of CUC, economic conditions, market conditions and other business and investment opportunities available to Fortis.
