FORTIS INC.

INVESTOR PRESENTATION
October 2019

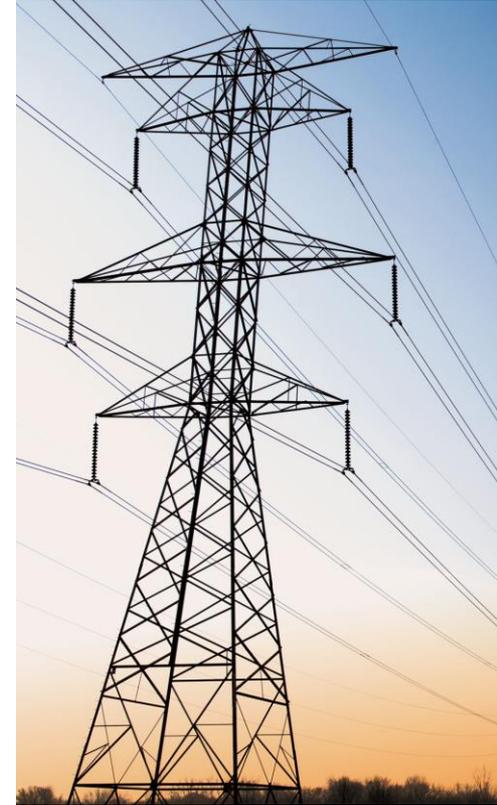

FORTIS^{inc.} FORWARD LOOKING INFORMATION

Fortis includes forward-looking information in this presentation within the meaning of applicable Canadian securities laws and forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (collectively referred to as "forward-looking information"). Forward-looking information included herein reflects expectations of Fortis management regarding future growth, results of operations, performance and business prospects and opportunities. Wherever possible, words such as anticipates, believes, budgets, could, estimates, expects, forecasts, intends, may, might, plans, projects, schedule, should, target, will, would and the negative of these terms and other similar terminology or expressions have been used to identify the forward-looking information, which includes, without limitation: targeted average annual dividend growth through 2024; TEP resource transition timelines and renewable energy targets; forecast capital investments and expected funding sources for 2019 and the five-year period from 2020 through 2024; forecast rate base through 2024; the expected timing and outcome of regulatory decisions; expected improvements in credit metrics; the nature, timing, benefits and costs of certain capital projects including, without limitation, the Wataynikaneyap Transmission Power Project, ITC Multi-Value Regional Transmission Projects and 34.5 to 69 kV Transmission Conversion Project, UNS Southline Transmission Project and Oso Grande Wind Project, FortisBC Lower Intermediate Pressure System Upgrade, Eagle Mountain Woodfibre Gas Line Project, Transmission Integrity Management Capabilities Project, Inland Gas Upgrades Project and Tilbury 1B and opportunities beyond the base capital plan.

Forward-looking information involves significant risks, uncertainties and assumptions. Certain material factors or assumptions have been applied in drawing the conclusions contained in the forward-looking information. These factors or assumptions are subject to inherent risks and uncertainties surrounding future expectations generally, including those identified from time to time in the forward-looking information. Such risk factors or assumptions include, but are not limited to: reasonable regulatory decisions by utility regulators and the expectation of regulatory stability; the implementation of the Corporation's five-year capital expenditure plan; no material capital project and financing cost overruns related to any of the Corporation's capital projects; sufficient human resources to deliver service and execute the capital expenditure plan; the realization of additional opportunities; the impact of fluctuations in foreign exchange; and the Board exercising its discretion to declare dividends, taking into account the business performance and financial condition of the Corporation. Fortis cautions readers that a number of factors could cause actual results, performance or achievements to differ materially from the results discussed or implied in the forward-looking information. These factors should be considered carefully and undue reliance should not be placed on the forward-looking information. For additional information with respect to certain of these risks or factors, reference should be made to the continuous disclosure materials filed from time to time by the Corporation with Canadian securities regulatory authorities and the Securities and Exchange Commission. All forward-looking information herein is given as of the date of this presentation. Fortis disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise.

This presentation includes historical non-US GAAP measures of adjusted earnings, adjusted earnings per common share, dividend payout ratio, CFO/Debt and holdco debt/total debt. These measures do not have a standardized meaning prescribed by US GAAP and may not be comparable with similar measures of other entities. They are presented because management and external stakeholders use them in evaluating the Corporation's financial performance and prospects. The most directly comparable US GAAP measures are reconciled in the appendix of this presentation.

Unless otherwise specified, all financial information is in Canadian dollars and rate base refers to mid-year rate base.

- Generation shift to renewables:
 - Significant renewable capacity and battery storage in MISO and SPP queues⁽¹⁾
 - Need for additional regional projects (MISO multi-value projects at capacity upon completion)
- Resiliency:
 - Hardening of physical assets and IT/fibre networks

- Resiliency:
 - Tilbury LNG storage
 - Southern Crossing Expansion
- Renewable gas target of 15% by 2030
- Tilbury expansion to serve Asian markets

- TEP target of 30% renewables 9 years ahead of schedule
- 2020 Integrated Resource Plan (IRP) will provide visibility on investments to further the delivery of cleaner energy

(1) Additional 82GW and 91GW of additional renewable capacity in MISO and SPP queues; 3GW and 7GW of battery storage in MISO and SPP queues

“Fortis has a very strong business risk profile, which is a key credit strength. More than 95% of its cash flow comes from a diverse portfolio of low risk investment grade regulated utilities... Fortis’ strong business risk profile generates predictable cash flow and debt levels leading to stable financial metrics over time, a key credit positive.”
 – Moody’s Credit Opinion (May 30, 2019)

RECOVERING FROM U.S. TAX REFORM

	2018	2019F
CFO/Debt ⁽¹⁾	~10.5%	~11%
Holdco Debt/Total Debt ⁽¹⁾	~39%	~36%

2020-2024 Business Plan

Average CFO/Debt⁽¹⁾ ~12%

2024 Holdco Debt/Total Debt⁽¹⁾ ~32%

(1) Based on Moody’s methodology: (i) cash from operations (“CFO”) is before changes in working capital and is reduced by 50% of preference share dividends; and (ii) holdco debt and total debt reflect 50% of preference share balance and other adjustments, where applicable. Holdco debt reflects Fortis Inc. corporate debt and debt outside its regulated utilities.

FortisBC Inland Gas Upgrades Project	9	319	Post-2024
FortisBC Tilbury 1B New Project	12	352	2024
Wataynikaneyap Transmission Power Project ⁽³⁾	188	437	2023

(1) Major capital projects are identified as those with a total project cost of \$200 million or greater and exclude ongoing capital maintenance projects. Total project costs include forecasted capitalized interest and non-cash equity component of AFUDC. Capital expenditures are translated at a forecast USD/CAD foreign exchange rate of \$1.32.

(2) Reflects capital expenditures since date of acquisition of October 14, 2016

(3) Reflects Fortis' assumed 39% share of the estimated capital spending for the project. Under the funding framework, Fortis will be funding its equity component only.

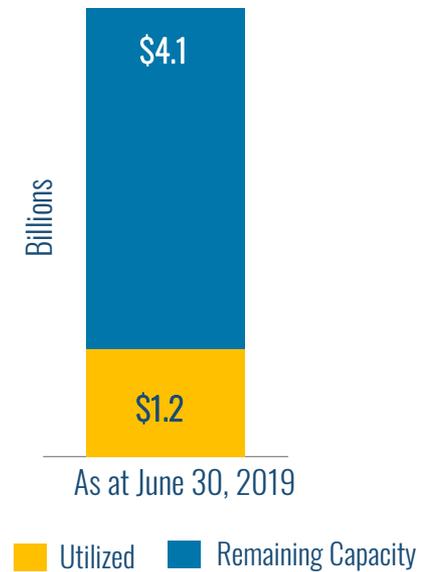

MANAGEABLE DEBT MATURITIES AND AMPLE LIQUIDITY

CONSOLIDATED FIXED-TERM DEBT MATURITIES⁽¹⁾

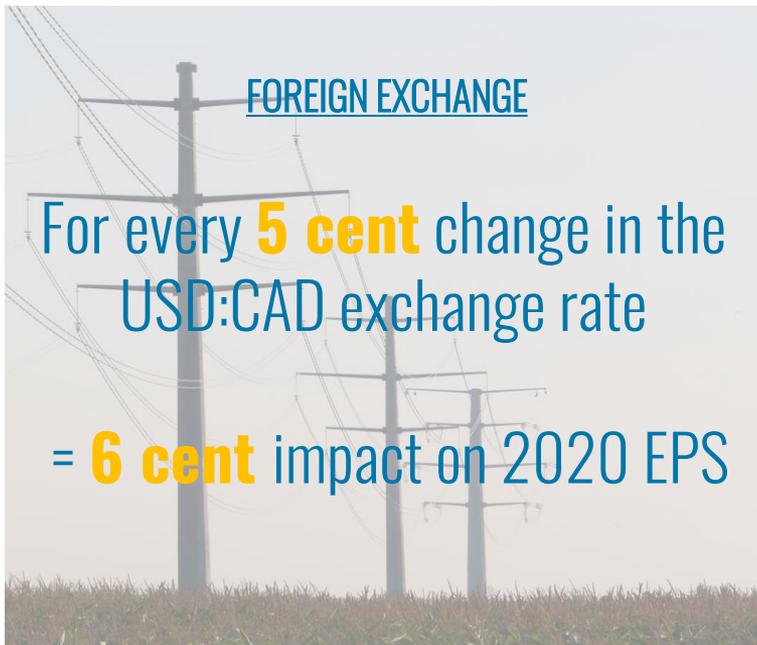

(\$millions)	2020F	2021F	2022F	2023F	2024F	Total
Canadian and Caribbean Regulated Electric	71	67	75	98	201	512
U.S. Regulated	206	418	3	304	127	1,058
ITC Holdings	-	262	655	327	524	1,768
Corporate	164	818	-	873	249	2,104
Total	441	1,565	733	1,602	1,101	5,442

CONSOLIDATED CREDIT FACILITIES

(1) Debt as at June 30, 2019 and excludes any new debt issuances during the plan period. Excludes repayments of finance leases along with the current portion of credit facilities, which are assumed to be extended by one-year annually.

FOREIGN EXCHANGE

For every **5 cent** change in the USD:CAD exchange rate

= **6 cent** impact on 2020 EPS

2020 EPS Impact	
25 basis point change in ROE at ITC	~\$0.03
25 basis point change in ROE at UNS Energy	~\$0.02

5-Year Rate Base CAGR	
Additional \$1B in Capital Expenditures	~30 BPS
